

ATTACHMENT B

REMARKS

By this amendment, Applicants have made the minor amendments to the claims necessary to allow the claims, and such amendments now place this application in condition for allowance. In particular, in the Official Action, the only rejections were on the basis that dependent claims 15 and 16 improperly depended upon canceled claim 12, and this has now been corrected in that these claims depend upon allowed claim 1. In addition, formal drawings as required by the Examiner are now provided.

Accordingly, in light of the present amendments to the claims and the filing of formal drawings, Applicants submit that the present application overcomes all prior rejections and has been placed in condition for allowance. Such action is earnestly solicited.
